

## **Please Help Us in Evaluating the Community Services and Supports Statewide Planning Process and Early Implementation.**

DMH has contracted with an independent study team who has developed this brief survey to get your opinions about the CSS statewide planning process and resulting plan requirements. We hope this will help us to improve our planning and monitoring activity as we continue to implement the various components of the MHSA

Your responses will be sent directly to the independent study team and not to the DMH. Your responses will be entirely confidential and cannot be linked in any way to your identity. *The entire survey will take less than five minutes to complete.*

If you have any questions about this survey or its authenticity you can contact either Candace Cross-Drew at the State DMH ([candace.cross-drew@dmh.ca.gov](mailto:candace.cross-drew@dmh.ca.gov) or 916-653-4582) or Pat Jordan with the Study Team ([jordan@olympus.net](mailto:jordan@olympus.net)).

**To take the survey just click on the link below:**
